## The miracle loft of G. & S. Verkerk (Reeuwijk, NL) is now a true all round loft!

There is a lot to be said about Gerard and Bas Verkerk. Quite a lot of prizes have been won in the small space of their pigeon loft and they have had quite a lot of champions as well. They have moved to a larger loft now with room for more champions. The outstanding quality of their breed has resulted in an impressive 2012 season with a long list of top prizes.

## The top class pigeons of Verkerk

Bas and Gerard focus on one thing: top class pigeons. Bas always tries to get the most out of their pigeons, especially the racers. They apply the basic principle of good pigeons x good pigeons as well. Now that they have a bigger loft they can also house a few extra champions. It is true that they had an impressive number of

top quality pigeons in their small loft in Alphen a/d Rijn. Now it seems that an increase in surface area will also result in an increase in champions. This is a loft with plenty of olympiad pigeons and national ace pigeons, as well as a large collection of provincial ace pigeons.

## The Verkerk pigeons in other lofts...

The Verkerk pigeons have been doing great in other lofts as well. The Burg & Waard partnership for instance has won a first National/Olympic from London against 1,465 pigeons with the 11-342. This is a race where the pigeons have to cross a lot of water and where the really strong birds stand out. This was definitely not a one trick pony: he has also won a second prize from Moeskroen against 2,070 pigeons!

There is also the first National Ace Pigeon Sprint of Leo Heremans that was bred from the line of Sprint x Verity, or in other words the lines of Magnum and Olympic Unbelievable. The Verkerk pigeons are successful in the One Loft Races as well. Take for instance the first Ace Pigeon in the Belgian Masters. His parents stem directly from the children of The Force, Bubbles, Pavarotti and Olympic Shakira.

Truly the loft with most Olympiad champion birds.
